SCORING SYSTEM

For this competition we are trying a new way of scoring which is inspired from skate boarding and snowboarding. They use a system where the judges turn a dial when they see a move/sequence they like. Depending on how far they turn the dial depends on how many points the skater or boarder gets.

We are doing the same, but using clickers instead. So depending on how many clicks you get will determine how many points you get for "Flair" and "Show".

This system is about how you make the people feel. Of course the judges will be looking at originality, difficulty, creativity, variety, bartending skill, relevance and all aspects of a routine. Plus it's NOT just about moves, but sequences you perform and the routine overall.

So those that excel in one category can still score as high as someone else that scores in another category. Each bartender just has strengths in different areas, which is what we see in today's competitions.

This also makes it easier for the judges to watch a routine in a relaxed way and click depending on the feeling they get from your flair.

Each judge will have 2 clickers. One for Flair and one for Show.

Flair - 50 points max

1 click - When a judge sees a standard move. This has to be more than just a swipe, but something like a switch or bump for example.

2 clicks - Performing a better move, it could be a signature move or something a bit better than a switch or bump. This is also for those moves that make you smile.

3 clicks - This is when a judge sees a move that makes them say "wow" or jump out of their seat.

Show - 50 points max

1 click - Something simple when flaring to the music or simply smiling to the audience

2 clicks - performing some flair to the music, bringing something a bit more entertaining to your routine.

3 clicks - when a bartender does something very clever for their show or they perform something amazing to the music.

Cocktail - 20 points

Taste - 10 points (make it taste amazing!)

Presentation - 5 points (this is the presentation of the cocktail)

Tiki Factor - 5 points (this is how tiki is your drink overall. Drink, show, bartender presentation, garnish etc)
